14-30 Nm				Installation Can be used for both copper- or aluminium conductors. With the Al-conductors, It's recommended to use anti-corrosion paste. (i.e. Penetrox). It is allowed to use max. of three adjacent cross-sections in one space (Copper conductors). The nominal max. cross-section value must not be exceeded.							
			,	When used Al-	conductors, i	t is allowed to	use only on	e conductor/	one space.		
				We recommen	d a ferrule w	hen using a fir	ne-stranded	conductor.
