| Color/ Material | | Green RAL 6 | 6018, Yellow RAL 101 | .6/ PA66 | | |
| Mounting/ Connection | | DIN-rail and | screw (M5) mounting | g | | |
| Description | | | | | | |

OTL-connectors are designed to be used connecting and branching aluminium and cobber conductors. Bodies are made of tin-plated aluminium.

Installation

Туре DIN-rail and screw (M5) mounting

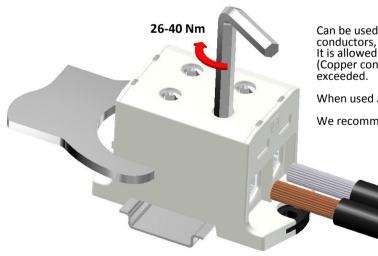

Screw mounting Use max. Ø5 mm screw. See picture.

DIN-rail mountingSet the connector to DIN-rail.
See picture. Push until "click"

Removing
Release the slider and lift connector

Installation

Can be used for both copper- or aluminium conductors. With the Alconductors, It's recommended to use anti-corrosion paste. (i.e. Penetrox). It is allowed to use max. of three adjacent cross-sections in one space (Copper conductors). The nominal max. cross-section value must not be

When used Al-conductors, it is allowed to use only one conductor/ one space.

50 mm2

1 (1)

We recommend a ferrule when using a fine-stranded conductor.

Each protective conductor must have their own conductor space. SFS 6000:1999 clause 810.2.6
